

MATERIAL SAFETY DATA SHEET

EPOXY AB GLUE Date of Issue: May 15, 2017 Page 1 / 6

1. Identification of Substance Product Details

Product Name: EPOXY AB GLUE

Products Use: Art and Crafts, decoration, electronic components potting, coating, flooring, carbon fibre products

Supplier: M.A.D Art Products

Tel & Emergency Tel: 03 5941 6788

Email: info@melbourneartdirect.com.au

Emergency Phone Numbers: Poison Info 13 11 26 Police/ Fire/ Ambulance 000

2. Hazards Identification

Emergency Overview: Not a hazardous substance or mixture according to Regulation (EC) No.1272/2008. Not a hazardous substance or mixture according to EC-directives 67/548/EEC or 1999/45/EC GHS Classification: The products do not need to be labelled in accordance with EC directives or respective national laws.

Other hazards: This substance/mixture contains no components considered to be either persistent, bio accumulative and toxic (PBT), or very persistent and very bio accumulative(vPvB) at levels of 0.1% or higher. Potential Acute Health Effects Eyes: Mildly irritating to eyes. Skin: Prolonged or repeated skin contact can cause irritation. Inhalation: May be irritating to upper respiratory tract. Ingestion: Single oral toxicity is considered to be extremely low. No hazards expected from swallowing small amounts incidental to normal handling operations. Ingestion may cause gastrointestinal irritation.

3. Composition / Data on Components

Component CAS# %by wt.

Epoxy resin 38891-59-7 64%

Benzyl alcohol 100-51-6 9%

Polyether amine 9046-10-0 24%

Auxiliaries / 3%

4. First aid Measures

Eye Contact: Immediately flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. Get medical attention.

Skin Contact: Wash with soap and water. If signs/symptoms develop, get medical attention.

Inhalation: Remove person to fresh air. Get medical attention.

Ingestion: Seek medical attention.

5. Fire Fighting Measures

Fire Fighting Media: Dry chemical, carbon dioxide, alcohol foam, water fog.
Special Fire-Fighting Procedures: As in any fire, fire-fighters should wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear.

6. Accidental Release Measures

Personal precautions, protective Evacuate area. Keep away from heat/sparks/equipment and open flames/hot surface. No smoking Procedures : only non-sparking tools. Ventilate the area with fresh air. Refer to other section of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

Environmental precautions: Avoid release to the environment.

Methods material for

Containment and cleaning up: If possible, seal leaking container. Place leaking containers in a well-ventilated area, preferably an operating exhaust hood, or if necessary outdoors on an impermeable surface until appropriate packaging for the leaking container or its contents is available. Cover spill area with a fire-extinguishing foam. An appropriate aqueous film forming foam (AFFF) is recommended. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material does not remove a toxic, corrosivity or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry.

Remember, adding an absorbent material does not remove a toxic, corrosivity or flammability hazard. Collect as much of the spilled material as possible using non-sparking tools. Place in a metal container approved for transportation by appropriate authorities. Clean up residue with an appropriate solvent selected by a qualified and authorised person. Ventilate the area with fresh air. Read and follow safety precautions on the solvent label and Safety Data Sheet. Collect the resulting residue containing solution. Seal the container. Dispose of collected material as soon as possible.

7. Handling And Storage

Precautions for safe handling: Keep out of reach of children. Do not handle until all safety precautions have been read and understood. Keep away from heat/sparks/open flames/hot surface.-No smoking. Do not spray on an open flame or other ignition source. Pressurized container :Do not pierce or burn ,even after use . Do not breathe/dust/fume/gas/mist/vapours/spray Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid release to the environment. Avoid contact with oxidising agents (eg. chlorine, chromic acid etc.) Use personal protective equipment(eg. gloves, respirators) as required. Vapours may travel long distances along the ground or floor to an ignition source and flash back. Do not use in a confined area or areas with or no air movement. Conditions for safe storage including any incompatibilities: Protect from

sunlight. Do not expose to temperatures exceeding 50°C/122F. Store in a well-ventilated place. Keep container tightly closed. Store away from acids. Store away from oxidising agents. 8. Exposure Controls And Personal Protection
Engineering controls: Do not remain in area where available oxygen may be reduced. Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/spray. If ventilation is not adequate, use respiratory protection equipment.

Personal Protection Eyes: Wear safety glasses with side shields. Wear additional eye protection such as chemical goggles or face shield if splashing or spraying hazard exists. Have an eye wash station available.

Body: To prevent skin contact use coveralls, apron, boots, or lab coat.

Hands: Avoid skin contact by using chemically resistant gloves.

Respiratory: No respiratory protection required under normal conditions of use. Use local exhaust to control excessive vapours/mists. If excessive vapours or mists are present use appropriate NIOSH/MSHA approved organic vapour/mist respirator.

Other: Open wounds or skin surface disruptions should be covered with a chemical resistant patch to minimize absorption risks. Clean clothing should be worn daily to avoid possible long-term build-up of the product leading to chronic overexposure.

9. Physical And Chemical Properties

General Information

Form: Liquid

Colour: Transparent

Odour: Slight amine smell

Boiling Point: Not Applicable Melting Point: Not Applicable Vapour Pressure:

Not Applicable Vapour Density: Not Applicable Solubility In Water: Not

Applicable Specific Gravity(H₂O=1): Not Applicable Density: 1.02-1.10g/cm³

Viscosity: 10cps-2000cps/25°C pH: Not Applicable Freezing Point: Not

Applicable Molecular Weight: Mixture, Not Applicable

10. Stability And Reactivity

Chemical Stability: This material is chemically stable under normal and storage and handling conditions Hazardous Polymerization: Hazardous polymerization will not occur

11. Toxicological Information

Chronic Toxicity: None known

Carcinogenic Effects: None known

Mutagenic Effects: None known

Teratogenic Effects: None known

Developmental Toxicity: None known Acute Effects on Humans: May cause skin, eye, and respiratory irritation

Sensitization: Repeated or prolonged exposure to the substance at

concentration above the exposure limits may cause respiratory tract and lung sensitization.

12. Ecological Information

Ecotoxicity: No data available, however the material is not expected to have any deleterious toxic effects

Environmental Fate: No data available regarding the environmental fate or biodegradation

13. Disposal Considerations:

Product-Recommendation: Consult state, local or national regulations to ensure proper disposal.

Uncleaned Packaging-Recommendation: Disposal must be made according to official regulations.

14. Transport Information

UN number ADR/RID: None IMDG: None IATA: None UN proper shipping name

ADR/RID: Not dangerous goods

IMDG: Not dangerous goods IATA: Not dangerous goods

Transport hazard class(es) ADR/RID: None IMDG: None IATA: None

Packaging group

ADR/RID: None IMDG: None IATA: None Environmental hazards

ADR/RID: No IMDG Marine pollutant: No IATA: No

15. Regulations

Product related hazards information: Observe the general safety regulations when handling chemicals.

National regulations: All components of this product are listed in the EU Environmental Protection Agency Toxic Substances Control Act Chemical substance Inventory.

Information about limitation of Use: For use only by technically qualified individuals.

16. Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

DISCLAIMER OF LIABILITY

The information in this MSDS was obtained from sources which we believe are reliable. However, the information is provided without any warranty, express or implied, regarding its correctness. The conditions or methods of handling, storage, use or disposal of the product are beyond our control and may be beyond our knowledge. For this and other reasons, we do not assume

responsibility and expressly disclaim liability for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product. This MSDS was prepared and is to be used only for this product. If the product is used as a component in another product, this MSDS information may not be applicable. We can assure the physical and chemical data is true. You should combine application of country and local regulations.
